PROFILE

Myself Jash, a computer engineering professional, I possess a strong foundation in programming languages, and creating full stack dynamic websites. I have worked on projects involving APIs, MERN Stack, and building Web Services, and I am confident in my ability to contribute to your organization's success.

EDUCATION

B-Tech, DHARMSINH DESAI UNIVERSITY

Bachelor of Technology in Computer Engineering [Latest Score: 8.2 CPI]

September 2020 –
present
Nadiad, India

12th, B-Kanae School

Completed 12th grade from B-Kanae School with the 90% aggregate in Science field

April 2019 – June 2020
Modasa, India

10th, B-Kanae School

Successfully, completed SSC from B-Kanae School with the 86% aggregate

April 2017 – May 2018
Modasa, India

SKILLS

Programming Language

C, C++,python, JavaScript, PHP, C#

Databases and Tools

MySQL, MongoDB, GitHub, Git, Visual Studio Code, Visual Studio

Web Technologies & Framework

ReactJs , NodeJs, HTML, CSS, Jquery, Tailwind CSS, Bootstrap, Asp.Net Framework, Asp.Net Core MVC, Asp.Net Core Web Api

PROJECTS

Online Blog System, .

- Technology used: Asp.net Core Api , ReactJs
- I had developed an online blog system website which had integrated front-end with the back-end API which enables the features of user authentication, blog post creation, blog CRUD operation with personalized image for every blog.

Online Placement Guidance App

- Technology used: MERN Stack
- As part of a team project, I led the development of a placement guidance website using the it is responsible for designing and implementing the models such as guidance, user and database schema(admin side).

Inventory Management System

- Technology used: Asp.net Core MVC, Bootstrap
- Proficient in developing inventory management system which focus on CRUD operation upon sales and bought products data and consist of authentication with proper validation.

Book Sharing App

- Technology used: PHP,Html,Css, JavaScript
- As part of a group project, I developed an online book sharing website aimed at allowing users to share and exchange books with others.

CERTIFICATES AND ACTIVITIES

- Certified course on basic C# programming on Infosys Springboard.
- Certified for participation in DUHacks National level Hackathon.
- Solved 300+ problem on various platforms.
- Successful created around 10 web based projects.
